

National Disaster Preparedness Training Center
at the University of Hawai'i

The national flag of Nepal

THURSDAY, OCTOBER 15, 2015

*NDPPTC invites you to our "Third Thursday" Meeting
with a distinguished disaster management delegation from Nepal.*

"Update from Post-Earthquake Nepal"

This unique group consists of representatives from the Nepali government, media/private sector, and NGOs. Their objective is to learn about "best practices" in disaster risk reduction, including how to prepare for, manage and respond to earthquakes and flooding hazards, analogous to Nepal's recent earthquakes and to their monsoon seasons.

The event will begin with the delegation's update on recovery efforts after the recent devastating Nepal earthquakes and highlights of their mission to the United States.

LOCATION FOR THIS PRESENTATION:

University of Hawai'i at Manoa

The Pacific Ocean Science and Technology (POST) building
